

DODGE  **HORNET**
2023

ALL-NEW 2023 DODGE HORNET

It was born to usher in a new era of muscle. It was built to disrupt the segment—to amplify the ingenuity and performance that makes a Dodge a Dodge. We've sharpened our stinger to deliver a muscle Compact Utility Vehicle (CUV) straight from the honeycombs of the industry's most aggressive hive—this is the All-New Dodge Hornet.

BRACE FOR THE STING

GT SHOWN IN BLUE STEELE WITH BLACKTOP PACKAGE AND TRACK PACK

2023 DODGE HORNET GT

Built with ingenuity and amped-up attitude, this is muscle in its newest form. Dodge Hornet GT arrives on the scene with a wide stance, aggressive hood lines and a mail-slot-style grille opening sculpted into the fascia. The side fender is adorned with fierce Hornet logo badging.

Opting for the available, race-inspired Track Pack is a major flex. Package highlights include 20-inch Abyss-finish aluminum wheels, Adaptive Dual-Stage Valve Suspension, Red Brembo® brake calipers and more.

GET IN YOUR COMFORT ZONE

/// HEATED VENTILATED FRONT SEATS

The performance-focused interior boasts perforated Alcantara® Sport seats that bring a premium feel. Both the driver and front-passenger seats feature 12-way power including 4-way lumbar adjust, along with heat, ventilation and memory settings. Available.

/// GT INTERIOR SHOWN WITH ALCANTARA SPORT SEATS WITH AVAILABLE TRACK PACK

THE DODGE HORNET GT IS THE MOST POWERFUL GAS COMPACT UTILITY VEHICLE (CUV)^{1*}

GT PLUS SHOWN IN BLU BAYOU WITH AVAILABLE TRACK PACK AND BLACKTOP PACKAGE

FOREVER AN ICON

Hornet gives sporty vibes with available 20-inch rims and Brembo[®] brake calipers. The finishing shot is delivered by a full-width all-LED racetrack taillamp, interrupted only by the first-ever illuminated Dodge Rhombus logo.

268 | 295

HORSEPOWER

LB-FT OF TORQUE

/// **THE MOST POWERFUL GAS COMPACT UTILITY VEHICLE (CUV)¹**

With 268 horsepower and 295 lb-ft of torque, the gas-powered 2.0L Hurricane Turbo engine and 9-speed automatic transmission work in tandem to deliver 0-60 mph in 6.5 seconds. This power makes Hornet GT the Most Powerful Gas CUV¹.

/// **9-SPEED TRANSMISSION**

The robust 9-speed transmission allows the engine to run in an optimal speed range, which yields a more responsive launch and better efficiency at highway speeds.

/// **ADAPTIVE DUAL-STAGE VALVE SUSPENSION**

While behind the wheel, select between two distinctive response profiles. **Sport Mode** delivers a stiffer suspension that minimizes body roll and improves cornering control. **Normal Mode** delivers a smooth, soft, compliant feel for incredible ride quality and comfort. Available.

/// **TORQUE VECTORING**

Dynamic torque vectoring distributes torque with electronic precision to each wheel, providing superior road grip and vehicle control. When used with Sport Mode, the system responds as an electronic limited-slip differential.

/// GT PLUS SHOWN IN 8 BALL WITH TRACK PACK

BEST-IN-CLASS TOTAL STANDARD SCREEN SIZE²

/// A TECHNOLOGICALLY ADVANCED EXPERIENCE

Hornet delivers a premium driving experience through a combined Best-in-Class total standard screen size that includes 22.5 inches of in-vehicle display screen space.² Located in the instrument cluster, a Largest-in-Class Standard 12.3-inch digital cockpit instrument cluster³ allows you to toggle through the speedometer, fuel economy and trip mileage and view available full-screen navigation. Information is displayed in three separate zones and allows the driver to customize the crisp, clear graphics.

A standard 10.25-inch Uconnect[®] 5 touchscreen lets you view images and information from advanced safety systems, such as the rearview camera's dynamic grid lines, or operate features like the Dual-Zone Automatic Temperature Control, radio features and more.

THE EVOLUTION OF THE CONNECTED DRIVE

ALEXA BUILT-IN⁴

Ask Alexa to stream music, navigate to points of interest, check the weather, view your calendar, build shopping and to-do lists, or answer general questions.⁴ Available.

START YOUR CAR FROM AFAR

Send destinations, lock the doors, check fuel status and more using the available Dodge Skill for Amazon Alexa⁴ or the available Dodge Action on Google on your voice assistant-enabled devices.

TOMTOM[®] CONNECTED NAVIGATION⁵ SYSTEM

Connected search, traffic and travel services keep you moving toward your desired destinations. Available.

SIRIUSXM⁶

Tune in and travel well. SiriusXM connects you with the ultimate entertainment experience, including over 160 channels of ad-free music, plus sports, news, talk and comedy. One-year trial included. Standard.

MAPS OVER THE AIR (MOTA)

Get updates to your navigation⁵ system at the push of a button. Updates are sent via a wireless connection and installed automatically. Available.

DODGE CONNECT

Enjoy a suite of safety and convenience features, including SOS Call⁹, lock/unlock or start⁹ your car from virtually anywhere, and much more. Three-month trial¹¹ included. Available.

SIRIUSXM[®] WITH 360L⁶

Enjoy a personalized experience with on-demand audio, content recommendations and more variety. Available.

UCONNECT[®] 5

Award-Winning Uconnect 5, with its large, full-colour, 10.25-inch touchscreen, integrates with your smartphone, thanks to wireless Apple CarPlay⁷ and Android Auto.^{TM7} Opt for a Wi-Fi Hotspot,¹⁴ and up to eight devices can connect. The system delivers greater personalization features and operating speeds that are five times faster compared to the previous generation. Standard.

PHONE/TEXT

Pair up to eight phones, make calls, use voice commands to hear and respond to texts,¹⁰ select media stations and access navigation.⁵ Includes wireless Apple CarPlay⁷ support with your connected iPhone and wireless Android Auto⁷ compatibility. Standard.

 GT PLUS SHOWN IN 8 BALL WITH TRACK PACK

GET THE BEATS BUMPING

/// HARMAN KARDON® PREMIUM AUDIO SYSTEM

Get in, crank the tunes and feel like you're in your own VIP section. Standard on Hornet GT Plus, the Harman Kardon Premium Audio System delivers a solid 465 watts of total system output through a subwoofer and 14 well-positioned speakers.

NO-COMPROMISE SECURITY

1 AUTO HIGH-BEAM HEADLAMPS

Intelligent Auto High-Beam Headlamps automatically switch on and off when appropriate. When travelling on a dark road with no traffic, high beams automatically turn on. If a vehicle with headlights on approaches up to 609.6 metres (2,000 feet) away or taillamps are detected up to 152.4 metres (500 feet) away, the system will dim to low beams to avoid hindering the vision of the other driver.

2 AUTOMATIC EMERGENCY BRAKING

Intelligent sensors help locate and track pedestrians and cyclists you may not see. If necessary, the system can automatically apply the brakes to help avoid hazardous situations. Standard.

3 LANE KEEP ASSIST¹²

The system provides a visual and haptic warning should the system detect the vehicle is straying from the lane, and if no driver correction is detected, then counter steering is automatically applied to maintain the vehicle in the lane. Standard.

4 360° SURROUND-VIEW CAMERA SYSTEM¹²

Activated when in Reverse, the system provides a bird's-eye view of the vehicle and its surroundings, enhanced by dynamic grid lines to better navigate around nearby objects and narrow turns. Available.

ADVANCE SAFETY TECH

1

2

1 ADAPTIVE CRUISE CONTROL WITH STOP AND GO (ACC STOP AND GO)¹²

When in use, the system maintains a driver-selected set distance from vehicles in the lane ahead. When slower traffic is detected, ACC STOP AND GO¹² can automatically adjust its speed all the way down to 0 km/h. The system will also stop and start the vehicle during stop-and-go traffic. Standard.

2 TRAFFIC SIGN RECOGNITION¹² AND INTELLIGENT SPEED ASSIST (ISA)¹²

By using the forward-facing cameras and navigation software, high-tech systems work together to identify the legal speed limit on most roads. The ISA helps enable drivers to maintain a set speed using a programmed system. Scanners observe the road ahead for traffic sign markers, then adjust vehicle speed and following distance accordingly. Available.

3 DROWSY-DRIVER DETECTION¹²

By using visual and audible alerts, the system can notify and suggest to the driver to take a break when they have driven a prolonged period of time or if steering behaviour signals fatigue. Available.

4 BLIND-SPOT MONITORING (BSM)¹² SYSTEM WITH REAR CROSS-PATH DETECTION¹²

When a vehicle is detected in your blind spot, an indicator light in the sideview mirror illuminates. The Rear Cross-Path Detection¹² feature also uses this radar to help detect possible obstructions behind your vehicle when you're slowly backing out of a parking spot or driveway. Standard.

3

4

A FULL-SENSORY EXPERIENCE

1 DRIVER-CENTRIC COCKPIT

The teched-out interior prioritizes the driver's experiences. A digital cluster and central display screen that is tilted toward the driver make information easy to read. The buttons on the centre stack are easily in reach. Intuitively placed buttons on the flat-bottom leather steering wheel let you choose between Sport and standard driving modes.

2 GO CORDLESS

Forgot your charging cable? No worries, Hornet makes charging on the go easy. Simply place your smartphone on the pad located under the Uconnect® touchscreen for cord-free charging. Standard on GT Plus only.

3 PUSH-BUTTON START AND SPORT MODE

Inside and out, Hornet takes a performance-centric approach. A push-button start delivers a high-tech feel when starting the engine. The steering was fine-tuned with performance and control in mind and includes a Sport Mode button. When activated, drivers will experience sharper throttle, higher RPM upshifts, tighter steering, and full power and torque.

4 REAR SEAT WITH SKI PASS-THROUGH

Keep the 60/40 split-folding rear seats up for maximum seating capacity. When room for longer gear like skis is needed, Hornet has the ingenuity to make this Compact Utility Vehicle (CUV) into a long-item hauler. Fold down a portion of the rear seat to enhance the overall cargo space.

PERFORMANCE IS A YEAR-ROUND COMMITMENT

 GT PLUS SHOWN IN Q BALL

ALL-WHEEL DRIVE (AWD)

This Hornet doesn't hibernate in the winter. Thanks to standard on-demand AWD, Hornet makes the most of every season and every road. Typically, the front wheels on Hornet receive all of the power, but the moment the system detects slippage, power to the front wheels is disengaged and 100 percent of the engine's torque is directed to the rear wheels. The AWD system works with the vehicle's Electronic Stability Control (ESC)¹³ System to deliver precise front-to-rear torque control while preserving unrelenting drive.

WARRANTIES: 2023 Chrysler, Jeep, Dodge and Ram vehicles are backed by a 5-Year or 100,000-Kilometre fully transferable Powertrain Limited Warranty* with \$0 deductible plus 24-hour roadside assistance. SRT vehicles are backed by a 3-Year or 60,000-Kilometre fully transferable Powertrain Limited Warranty* with \$0 deductible plus 24-hour roadside assistance. Basic Warranty coverage is for 3 Years or 60,000 Kilometres.* Rust-through coverage on all body sheet metal is for 3 years. The Cummins Turbo Diesel engine is protected by a separate Limited Warranty, covering the engine for 5 Years or 160,000 Kilometres.* The EcoDiesel engine is backed by a 5-Year or 100,000-Kilometre fully transferable Powertrain Limited Warranty* with \$0 deductible plus 24-hour roadside assistance.

*Whichever comes first. Some conditions may apply. †The 5-Year/100,000-Kilometre Powertrain Limited Warranty does not apply to vehicles sold for certain commercial uses. See your retailer for full details.

MOPAR VEHICLE PROTECTION: FCA Canada Inc. has a vested interest in your satisfaction and owner experience with your new vehicle. Mopar Vehicle Protection offers extended service and maintenance plans to help ensure you'll enjoy your vehicle for many years down the road—for just pennies a day. For more information on comprehensive vehicle coverage, see your local Chrysler, Jeep, Dodge and Ram retailer or call 800-465-2001.

DISCLAIMERS: 1) Based on IHS's Compact UV segment and current available competitor information and horsepower. 2) Based on the latest competitive information, IHS's Compact UV segment and a total screen size of 22.55 inches. 3) Based on IHS's Compact UV segment and current available competitor information. The base standard content and 12.3-inch cluster size. 4) Vehicle must be properly equipped with a Uconnect 5 NAV system. Requires a Wi-Fi Hotspot data plan and linked Amazon account to run Alexa in the vehicle. 5) Never program while driving. GPS mapping and 3D navigation may not be detailed, available in all areas or reflect current road regulations. 6) If you decide to continue service after your trial, the subscription plan you choose will continue and you will be charged according to your chosen payment method at then-current rates unless you cancel your services. Fees and taxes apply. Some services and features are subject to device capabilities and location availability. Please see the SiriusXM Customer Agreement at www.siriusxm.ca/terms for complete terms and how to cancel, which includes calling SiriusXM at 1-888-539-7474. All fees and programming are subject to change, provided that we will notify you in advance of any price change. We use personal information in accordance with our Privacy Policy, available at www.siriusxm.ca/privacy. 7) Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice controls, when it is safe to do so. Requires compatible iPhone. See retailer for phone compatibility. Data plan rates apply. To wirelessly use Android Auto on your car display, you need a compatible Android smartphone with an active data plan. You can check which smartphones are compatible at g.co/androidauto/requirements. 8) Vehicle must be enrolled with Dodge Connect, be in an active and usable cellular range, and have an active subscription. SOS Customer Care agent directs emergency assistance to your vehicle's location. 9) Vehicle must be enrolled with Dodge Connect, be in an active and usable cellular range, have an active subscription, and be properly equipped with remote features. Remote Vehicle Start is not available on all vehicles. You are responsible for using remote features in accordance with any laws, rules or ordinances in effect in your vehicle's location. 10) Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. 11) All vehicles properly equipped to receive connected services come with a three-month trial of the full suite of Dodge Connect services effective from the date of purchase or lease of a new vehicle. Enrolment in the trial is required to receive service. Upon expiration of the trial period, purchase of a subscription is required to continue or renew services. Dodge Connect is available only on equipped vehicles purchased within the United States, Canada and Puerto Rico. Services can only be used where cellular coverage is available. 12) This is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of their surroundings and be prepared to take corrective action to avoid collisions. 13) No system can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. 14) Three-month/1GB trial included with the purchase or lease of a new vehicle. Upon expiration of the trial period, purchase of a subscription is required. Wi-Fi Hotspot available through third-party subscription. Requires Internet-enabled mobile device. See retailer for details. This feature is not intended for use by the driver while the vehicle is in motion. Always drive carefully.
